

## METROPOLITAN HEALTH DISTRICT

**Food and Environmental Services | 210-207-0135**

### COMMISSARY / CENTRAL PREPARATION FACILITY INFORMATION

A Commissary / Central Preparation Facility is a licensed food establishment that fully meets the Texas Food Establishment Rules (TFER) and has been approved by the local Health Authority.

Any mobile food unit (MFU) that has freshwater and wastewater tanks used during operation or a mobile food unit that openly handles foods must operate from an approved commissary / central preparation facility with a servicing area. A servicing area will not be required where only packaged food is placed on the MFU or where a MFU does not contain freshwater and wastewater tanks. A MFU must visit the commissary / central preparation facility / service area once per calendar week for supplies and servicing of the unit.

Call (210) 207-0135 for commissary / central preparation facility requirements. Licensed food establishments must meet requirements and approved by Metro Health to become a commissary / central preparation facility.

Below is a list of local commissaries / central preparation facilities approved by San Antonio Metro Health.

Please be sure to contact locations for all services provided.
