

# Food Establishments

## Environmental Health Division

The commissary is a base of operations for all mobile food establishments. Each vehicle must operate from an approved commissary and report daily for all supplies, cleaning, and servicing operations. Each commissary is required to be constructed and operated in compliance with the requirements of the Maricopa County Environmental Health Code (MCEHC).

Depending on the vehicle's needs, commissaries may have different services available. In general, commissaries are used to carry out the following services:

- Fresh water supply
- Gray water disposal
- Ware washing facilities
- Food preparation
- Trash disposal
- Food Storage
- Chemical storage
- Facilities for cleaning and storage of vending machines

In order to obtain a permit from this Department, a signed commissary agreement is required for each unit at the time of initial permitting and at permit renewal. Be advised that each commissary agreement will be verified to ensure the facility can provide your mobile food establishment with the needed services.

In addition, the MCEHC requires each permit holder to maintain a [log](#) of visits to the approved commissary. The [log](#) must be written in permanent, waterproof ink, and must always be maintained within the unit.

Below is a list of commissaries that have been verified and are approved within Maricopa County. Before making any arrangements, please inquire about the type of services offered, hours of operation, and other pertinent information. This list is not all-inclusive and other facilities may be approved as a commissary if the services provided meet the needs of the mobile food establishment. Additional facilities will be evaluated on an individual basis.

Please note that if you are planning to use a commissary that is not listed below and your mobile food establishment has a 3-compartment sink, you must obtain written approval from the local jurisdiction where the permitted fixed food establishment is located to obtain approval to discharge wastewater (contact the local jurisdiction's pretreatment program).
